

Breakfast Seminar

Key Trends in Capital Markets:

Green Finance

Invitation

Key Trends in Capital Markets: Green Finance

Following the COP 21 Paris Agreement, tackling climate change has become a top global priority of legislative actors worldwide. International capital markets provide an ideal environment for Green Finance products. Luxembourg, a pioneer in Green Finance, has positioned itself as the global hub for green bonds and a true expert in sustainable finance. Upcoming capital markets legislation in Europe and Luxembourg is expected to further boost Green Finance in Luxembourg and beyond.

Our distinguished speakers will discuss the recent trends in European Capital Markets with a special focus on Green Finance.

The Seminar will be held at the offices of GSK Luxembourg SA.
